

IIRSM COMAH Awareness

Description

This 2-day Control of Major Accident Hazards (COMAH) course gives delegates the understanding of the 2015 regulation, whilst reassuring and assisting them to ensure their compliance to the requirements relevant in their departments. This IIRSM-approved course, delivered by experienced health and safety professionals, dissects the COMAH Regulations; explaining what they mean, and producing the opportunity for delegates to get answers to any difficult situations they may encounter.

Depending on your need, the course content can be tailored to meet your key concerns, alongside specific local requirements.

Aims

Delegates will be able to understand the requirements of the Control of Major Accident Hazards (COMAH) Regulation 2015

Objectives

Delegates will:

- Understand the principles and duties of COMAH
- Be able to interpret information provided for dangerous substances
- Assist the organisation with being compliant with COMAH
- Understand the ALARP principle and its impact on the safety report
- Understand the notification, planning consent and intervention process
- Know when and how to apply a management of change process

Duration 2 days

Modules

- UK framework and key legal concepts
- COMAH substances and identifying them
- Classification, Labelling and Packaging Regulations
- General duties - the ALARP Principle
- Notification and planning processes
- Major Accident Prevention Policy
- Safety Report
- Emergency Plans
- What information should we provide to the public and how
- Identifying and managing change
