IIRSM Everyday Safety Management

Description

The Everyday Safety Management course is created to provide supervisors and first line managers with the practical knowledge, skills, tools and techniques to be able to play an active part in helping to prevent others from getting hurt and take a constructive role in achieving a positive safety culture.

This course, delivered by experienced health & safety professionals, gives time for in-course practical sessions and an end-of-course action-planning workshop. During the course there is also time to explore the organisation's in-house systems and processes.

Depending on your need, the course content can be tailored to meet your key concerns, alongside specific local requirements.

Aims

Delegates will understand everyday safety practices and learn practical safety skills, tools and techniques to play an effective role in the promotion and maintenance of a positive safety culture within their area of influence

Objectives

Delegates will:

- Understand the practical implications of health and safety law as it applies to their organisation
- Understand and supervise safe systems of work that have resulted from the risk assessment process
- Play an active role in incident reporting and investigation
- Be able to support colleagues in promoting safe behaviour within their organisation

Duration 3 Days

Modules

- What does 'safe' look like
 - Safety systems, core values, legal principles
- What does leading safety look like
 - Safe behaviour, safe systems of work, and the three step process
- Investigating incidents and a way forward
 - The causes of incidents
 - Investigating incidents
- Review of the programme and action planning
